

Gift Box Tag or Card

- Trace correct size pattern onto card stock.
Note: There are two sizes on this pattern. You can get (2) of the large and (3) of the small boxes on an 8 ½ x 11 sheet of card stock. Enlarge or reduce as desired.
- Cut box on solid lines.
- Fold on dotted lines: top one out and bottom one in.
Note: Scoring the lines first makes it easier to fold. Use a ruler and stylus, bone folder or the scoring blade on the 12" cutter.
- Stamp tag or card as desired. Using a coordinating marker, draw solid or dotted lines to define the box.
Note: Make a cardboard or transparency template to trace box definitions.
- Add ribbon and bow as desired.
